

# Recommendation Letter

To whom it may concern,

This letter is written to attest that **Delilah Harris** has taken part in and successfully completed the **UX/UI for Gaming** course taught by me and delivered through ELVTR.

Throughout the course, Delilah has demonstrated an excellent understanding of the material covered in class and has made significant contributions through home assignments and a final project. Delilah excelled in designing various interface components, shaping user experiences, and planning and conducting usability tests.

Feedback iteration has been an essential part of this course and an area where Delilah has also demonstrated significant achievement. Taking an active part in peer discussions and completing in-class and homework, Delilah successfully completed all stages and delivered a well-thought-through portfolio project for a game.

It has been a pleasure working with Delilah, and her performance, commitment, and attitude have left a positive, lasting impression. I'm confident that Delilah will be able to put the skills and knowledge that she has extracted from this class towards the advancement of her career, and I look forward to seeing the fruits of her labor.
